- Continuous ecological and economic development
- European Patent No. 311521
- **Standard dimensions:**
  2500 x 1000 x 30mm
  2500 x 500 x 30mm
  Other dimensions possible
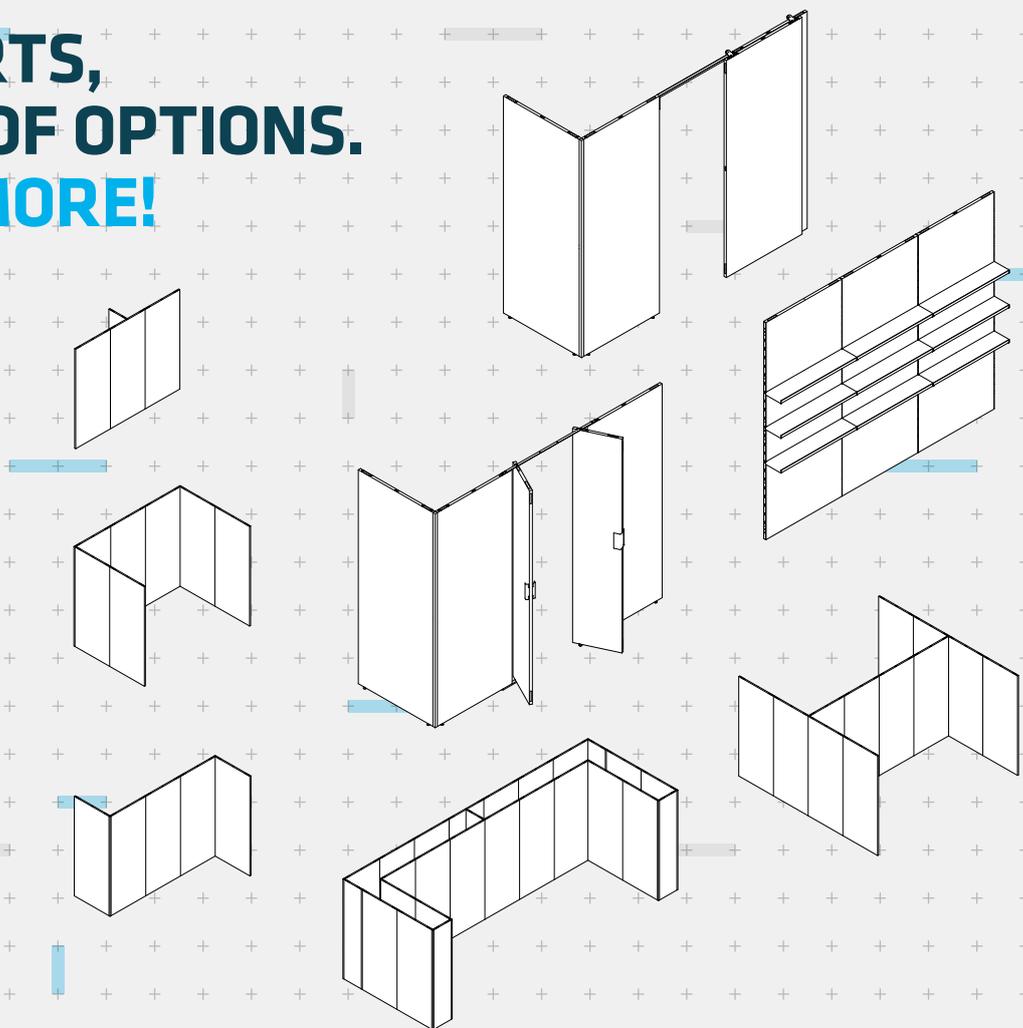

THE FACTS

Sustainable and eco-friendly
Uncompromisingly ecological by saving resources and by using recyclable materials in a sustainable manner.

Lightweight but stable
With only 10 kg/m² and its double-arched honeycomb core it's a real lightweight in terms of stability.

Efficient and fast assembly
Ready-to-install lightweight panels, a flexible modular system, little equipment and maximum versatility.

Quality made in Germany
Highest quality standards responsibly produced at fair prices. Made in Germany – Less transport, lower emissions.

THE MATERIAL

BASIC
Melamine finish
premium white, pearl texture

PREMIUM
HPL finish
premium white, pearl texture

ECO+
Natural fibre finish
paintable

FIRE+
Uncompromising safety
HPL finish + certification*
